

# REUEL CHRISTIAN SUNDIAM

BACKEND | FRONTEND DEVELOPER

## PROJECTS

### InternStreet

(<https://github.com/ru-wel/internstreet-cloudcom>)

- InternStreet is a website that connects students with internships offered by companies.
- Created with React, Node.js, Express.js, PostgreSQL
- Created the backend that enables students to browse, apply, and track applied internships.
- It also features an admin dashboard for managing users, job postings, and application data.

### MNHS LMS

(<https://github.com/ru-wel/mnhs-lms-mern>)

- An LMS proposed for a high school in Mexico, Pampanga.
- Created with React, Node.js, Express.js, PostgreSQL
- Created the backend that allows teachers to upload modules, students to view and download resources, a login system, and administrative controls.
